

What is the finance portal?

The UNFCCC website includes a [climate finance data portal](#) with helpful explanations, graphics and figures for better understanding the climate finance process and as a gateway to information on activities funded in developing countries to implement climate action. The finance portal comprises three modules, each of which includes information made available by Parties and the operating entities of the financial mechanism.

The first module, the [National Communications Module](#), presents information communicated by contributing countries on the provision of financial resources, in the context of regular reporting to the Convention. The second module, the [Fast-start Finance Module](#), includes information on resources provided by developed countries in the context of their commitment to provide approximately USD 30 billion over the period 2010–2012. The third module, on [Funds Managed by the GEF](#), is a joint effort between the secretariat of the UNFCCC and the GEF and contains information on climate finance flows of the GEF in its role as one of the operating entities of the financial mechanism to the Convention. Additionally, information on projects and programmes of the [Adaptation Fund](#) can be found in the finance portal. This fund was established under the Kyoto Protocol to finance concrete adaptation projects and programmes in developing countries that are Parties to the Kyoto Protocol.
